

AMSI is a collaboration of academicians and educators who bring together a wealth of experience and international expertise. In our alliance we have learnt to value creativity and the active pursuit of excellence.

We have a passion for our industry and for what we do. We utilize our skills to search for and apply new technologies, approaches, and business solutions, which will contribute to the betterment of the educational industry. We strive to achieve high quality in all of our business endeavors. Our systems and procedures are designed to high standards of quality.

The organization's widely heralded successes in the field of ICT integration into the mainstream educational processes is testament of this fusion.

AMSI's primary focus remains in the expansion of its existing and successful models of Al Mawakeb and the International School of Arts and Sciences. We are strategically poised to partner with potential investors, who share our passion and vision in taking these models to new shores.
