

AMSI DOCUMENT MANAGEMENT SOLUTIONS

MAXIMIZED EFFICIENCY FOR ALL PUBLICATIONS' NEEDS AND FLEXIBILITY.

At the heart of AMSI's education portfolio is the Document Management Solution. This platform offers a tremendous capability to any school in the area of publishing and printing.

Such an asset caters for all fields within an education environment :

- Academic resources: such as books and exams
- Administrative requirements: such as newsletters or internal organization documents
- Extra curricula printing: such as a school's year book or a club or society's annual book
- General publications: school photos, press releases or promotional material showcasing the school's achievements and feats

This comprehensive solution provides a one-stop shop that allows a school the ability to print and document at its own pace tailoring its material to its own specific needs whilst maintaining a high level of print quality. In doing so, this enables complete control without compromising on flexibility for the user.

Through its advanced software and design, AMSI's Document Management Solution is integrated into the rest of a school's operation to allow for a seamless process. From the moment a student registers, they are allotted with the appropriate text books and printed materials. Furthermore, their parents are continuously in touch with the students learning environment via the various publications and printed communications.

The significant financial benefits for any school, with more than 1,000 students, employing AMSI's Document Management Solution makes such a system highly attractive and practical. In addition to reducing turn-around times associated with outsourcing, this on-demand capacity empowers a school to cut costs associated stockpiling and to uphold the integrity and security on its printed matter.

AMSI – XEROX.

An Academic Alliance
